How to prepare for your tax return?

Preparing for your tax return doesn't have to be stressful. Here are a few simple steps you can take to make sure you're ready for the tax season.

Step 1: Complete the online form from our website

➡ We understand it could be a daunting process to provide all your details manually to your accountant or tax agent. Here, we have put together an online form to save all your hassles.

Please complete [Tax detail](#) form online so that we get some basic details about yourself.

Step 2: Gather all the necessary documents

➡ Without accurate records and receipts, it will be difficult for both yourself as well as us trying to find out about what was spent on to find potential avenues of savings or additional income from tax returns.

Please refer to our [Documents Checklist](#) for you start gathering necessary documents.

Step 3: Keep track of all your work-related expenses.

➡ You must keep detailed records of all your work-related expenses in order to take advantage of the deductions and save yourself a considerable amount of money during the tax time.

Please refer to the list of deductions that you can claim: [Expenses Checklist](#)

Step 4: Determine the way you want to lodge your tax return.

➡ The most popular option is to use an accountant or tax agent, who will handle the entire process for you, if you don't have the time or patience to deal with the paperwork yourself.

Please book a call with [ZedPlus](#) to have a seamless taxation experience.

Documents Gathering Checklist

If you forget some important paperwork, then there could really be some major consequences! We've made this checklist easy-to follow so that all of those pesky details are taken care of.

It's important to remember that these are just guidelines. Not every point applies to everyone!
